Rubber Antivibration Systems

PPM TYPE: Cylindrical antivibration parabolic buffer male

Cylindrical anti-vibration parabolic buffer with a seat composed by a screw pressed on a zinc-plated washer, vulcanised on a high-quality natural rubber mix, in stock in 55 Shore A hardness.

Upon request, this article can be produced with different specifications: different screw sizes, Shore A hardness and mix bases.

The parabolic anti-vibration buffer can be used as bumper, end stroke, feet and as a limiter for both the vertical and the horizontal movement.

CODE	PPM TYPE
